

# RAVE:

The PGH2O Recognition and Appreciation of Vendor Excellence (RAVE) Profile is an initiative from our Supplier Diversity Program that highlights one of our 68 outstanding diverse businesses.

**The Wilson Group** is an MBE-certified vendor with over thirty years of experience analyzing, designing, implementing, and managing workflow solutions. With more than 50 employees and over 2,000 customers, including Pittsburgh Parking Authority, Peters Township School District, and Pittsburgh Public Schools, the Wilson Group provides workflow solutions to meet various business needs.

The Wilson Group has supported PWSA's copying, printing, and scanning needs since 2013. Working with our team, they analyzed our business practices across our seven office locations through a printer rationalization study. Once the study was completed, they created and implemented a replacement plan for our desktop printers to more efficient multi-function printers. The Wilson Group has continued to provide maintenance and support to our organization after implementation.

Our long-term partnership with the Wilson Group is made possible by their willingness to go above and beyond to help the PWSA team. Due to their exceptional service and robust qualifications, PWSA recently extended our contract term for an additional five years. We recognize and appreciate the Wilson Group for their vendor excellence.
